

## OVERVIEW

The xCella Wireless Handheld Remote communicates to xCella Remote Modules or Wireless Receivers using RDT wireless technology to deliver ON, OFF control.

The Wireless Handheld Remote is completely self-powered so there are no wires to run or batteries to replace, which reduces installation time and costs.

The Wireless Rocker Switch is paired with an xCella Wireless System in seconds using Pair and Play™ system programming.

## FEATURES

- Pair and Play™ technology for fast setup
- 90 ft. maximum indoor range

## SPECIFICATIONS

Dimensions:	1.85 x 3.15 x 0.7 inches
Max. humidity:	10-90% non-condensing
Ambient temperature:	32-140° F (0-60° C)
Wireless protocol:	RDT (902 MHz) RF transmission
Certifications:	FCC ID: SZV-PTM200C, SZV-PTM210C or SZV-PTM210U

## xCella™ Wireless Handheld Remote

## Warranty

Five-year limited warranty. Complete warranty terms located at:

[www.acuitybrands.com/CustomerResources/Terms\\_and\\_conditions.aspx](http://www.acuitybrands.com/CustomerResources/Terms_and_conditions.aspx)

**Note:** Actual performance may differ as a result of end-user environment and application. Specifications subject to change without notice.

## ORDERING INFORMATION

Wireless Remote			Example: XCR HHR BWH	
Series	Type		Colors	
XCR	HHR	Handheld Remote	BWH	White
			BBK	Black

## COMPATIBLE xCELLA PRODUCT FAMILY WIRELESS ACCESSORIES

Rocker Switch  
902MHz  
Model: XCR 1PWH  
CI Code: \*220UP4

Dual Rocker Switch  
902MHz  
Model: XCR 2PWH  
CI Code: \*220W90

Plug-Load Controller  
902MHz  
Model: XCR PSM  
CI Code: \*222GFW

### COMPLIANCE INFORMATION

Contains FCC ID: SZV-PTM200C, SZV-PTM210C or SZV-PTM210U,  
Contains IC: 5713A-PTM200C, 5713A-PTM210C or 5713A-PTM210U

The enclosed device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (i.) this device may not cause harmful interference and (ii.) this device must accept any interference received, including interference that may cause undesired operation

**CAUTION:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

#### CAN RSS-Gen/CNR-Gen:

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada.

To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

Conformément à la réglementation d'Industrie Canada, le présent émetteur radio peut fonctionner avec une antenne d'un type et d'un gain maximal (ou inférieur approuvé pour l'émetteur par Industrie Canada.

Dans le but de réduire les risques de brouillage radioélectrique à l'intention des autres utilisateurs, il faut choisir le type d'antenne et son gain de sorte que la puissance isotrope rayonnée équivalente (p.i.r.e.) ne dépasse pas l'intensité nécessaire à l'établissement d'une communication satisfaisante.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
