

# Peerless® Renna™

## With Integral Driver

### Everyone deserves great lighting

Peerless® Renna™ is a rectilinear profile luminaire that delivers what matters most to you – visual comfort, more control, sleek design, easy installation and premium quality in a cost-effective solution.

And now offering even more design options than before, with over seventeen transitions and the simplicity of an integral driver.

### Integral Driver Provides Streamlined Control Options

- Embodies superior quality of light within a refined minimalist design
- Provides outstanding brilliance and design flexibility
- Prioritizes visual comfort for general illumination
- Eliminates room side glare by uniformly lighting the vertical plane
- Enhances both aesthetics and functionality
- Supports single or dual circuit applications
- Integral 0-10V controllable driver ideal for dimming or non-dimming installations
- Enables on/off functionality through switched line voltage
- Option of pairing with nLight or nLight Air power packs for expanded capabilities

**Peerless®**

### Design Freedom

**Small form factor** - 1 inch high by 4 inches wide

**Run lengths** - 4 foot and 8 foot sections, and continuous runs

**Complete set** - recessed, pendant, ceiling and wall mount

**Light Source** - direct, indirect, indirect/direct and a patent pending asymmetric vertical wall wash

**End caps** - square, rounded, sculpted

**Finishes** - textured white, textured black, painted aluminum, and custom colors also available

**Transitions** - now more than 17 twists and turns available.....

### Application Versatility

**Suspended Linear** - Efficient, comfortable general illumination

**Ceiling Surface-Mounted** - Low-profile, direct illumination, engineered to align straight on any ceiling

**Wall-Mounted** - Minimal profile and multitude of transitions enable continuous wall mounting

**Vertical Wall Wash** - Unique vertical wall-wash optics uniformly light walls from top to bottom

Renna transitions allow for patterns in 3-dimensional space. Create unique combinations of surface, suspended and wall-mounted configurations in the same application!

Renna is a recipient of the  
**Lightfair® International 2019 Design Excellence Award**
