

# XIB IP65 LED High Bay

Application Spotlight - Natatorium

With versatility for challenging applications including wet, humid, cold, dirty, open air spaces and more.

Natatoriums and Public pool spaces can create many challenges for light fixtures. The versatile XIB is designed to perform in these spaces

- IP65 Design – protects electronics in warm, humid environments found in indoor pools
- Robust Cast Aluminum design, ultra-durable corrosion resistant finish helps the fixture hold up with constant exposure to chemicals and moisture
- Attractive aesthetics, diffuse non-pixelated optics, and uplight options provide a premium lighting experience
- 10kV Surge protection, long-lasting life eliminating the need for tricky maintenance over pools

Diffuse Acrylic Lens

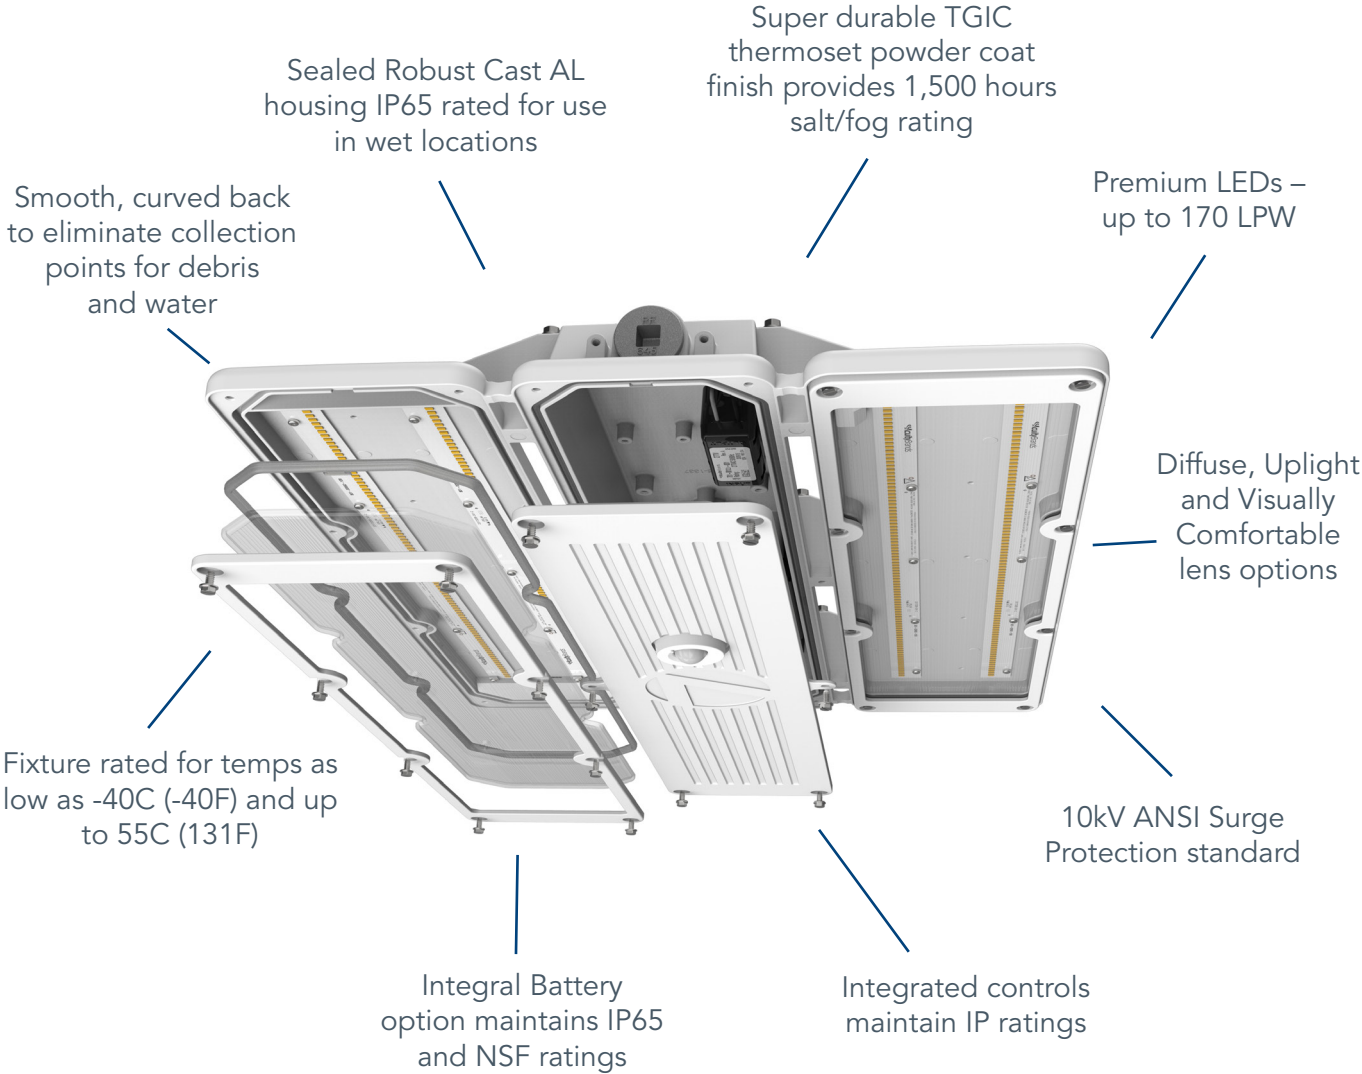

Visually Comfortable Acrylic Lens

# XIB IP65 LED High Bay - Natatorium

The design of the versatile and capable Lithonia XIB LED allows it to excel in Natatorium and public pool lighting. In a world of non-sealed and sheet metal fixtures, the XIB is in a class of its own.

## Key Features

Take full advantage of energy savings and controllability by pairing with nLight Air Wireless controls.
