

BLTR

Relight Lay-in Series

Looks Like BLT Installs in a Snap

Don't just retrofit, Relight with BLTR for real ROI. The BLT Relight Series provides quick, easy installation into most existing fluorescent troffers and parabolics. Get the look, feel and performance of a full fixture replacement at the fraction of the cost. The BLTR series also provides single-room or networked lighting control options to further enhance your energy savings and flexibility.

- Enhances the quality of lighting in your space
- Complete installation from the room side— no need to access the plenum
- Converts existing fluorescent troffers or parabolics
- Energy savings of up to 70%
- 0-10V dimming down to 10% (1% optional)
- Nearly all configurations are DLC Premium or DLC Standard qualified products and are eligible for utility rebates

Optional Controls & Trim Shown

More sizes for greater flexibility

Minimize waste, disposal and disruption. Installs in less than 5 minutes!

nLight® Networked Lighting Controls

Wired

nLight wired is the “plug n’ play” controls solution for you. Take your space to the next level with features such as occupancy sensing, daylight harvesting, and even color tuning through nTune™.

Wireless

nLight AIR provides wireless controllability to your fixtures to dramatically reduce installation costs. Simply pair your nLight AIR enabled fixtures and devices with the CLAIRITY™ Pro app and you are ready to go.

SensorSwitch™ JOT

Single Room Control

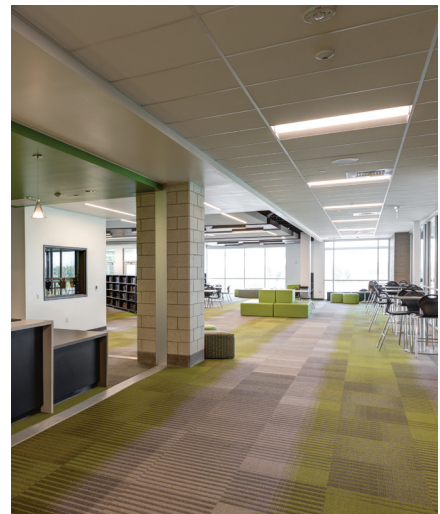

The SensorSwitch JOT enabled solution provides a wireless, app-free approach to single room lighting control. Fixtures embedded with JOT offer dimming, occupancy sensing and daylight harvesting. Absolutely no 0-10V control wires and no mobile apps are needed to install and pair JOT enabled products, allowing for lightning speed installation right out of the box.

Universal Bracket

Universal end brackets allow BLTR to fit into nearly existing fluorescent troffer or parabolic housing.

Complete Outfit

BLTR is part of the BL Family which includes the industry leading BLT center-element troffer, the BLWP surface/suspended linear, the Contractor Select™ BLC center basket troffer, the BLTX surface mount troffer and the BLTBA bottom access troffer.
