

# SPX™

The Feature-Rich, Recessed Ambient  
Product with Personality

# What's Your Style?

Looking for something  
visually interesting?

Or is your personality  
a little more reserved?

With SPX you get to choose without sacrificing quality. Introducing the fully luminous lay-in with multiple optic options, each of which is designed to match the personality of your space. Now you don't have to weed through products to find the quality, specification listings, and price point that matters most for your project. You deserve a high caliber fixture that meets the space's personality and stays within your budget.

SPX is here for you.

Smooth Low-UGR

## Pick Your Personality

With different optics options brought to you by WhiteOptics® cutting-edge 3D visual technology, you can select the perfect lens to bring harmony to your space.

### Smooth Low-UGR

Visually simple, optically complex, give occupants the ultimate comfortable solution

### 3D Crumple

Visually intriguing – gives the illusion of depth on a flat surface

### 3D Penrose

Encourage creativity with this repeating pattern

### 3D Center Basket

Turn their heads – completely\* flat yet optically appears as a center-element

### 3D Frame

Maintain balance and the aesthetic appeal of depth

### Micro-Prismatic\*

A traditional look in a fully luminous fixture

\*Not enabled by WhiteOptics.

# The Features Don't Stop
