

F Flange

G Grid

GB Flangless Mud-In

HIGHLIGHTS

- Single function ambient light fixture with 2700K to 6500K tunable white capabilities
- Recessed 4" x 24" / 36" / 48" / 72" / 96" nominal lengths
- Versatile mounting trims for sheet rock with flange, sheet rock trimless mud-in, or grid ceiling types
- Snap-in acrylic lens provides uniform illumination
- Symmetric or Asymmetric light distributions available
- nLight® nTune wired interface
- IP64 Wet Location standard, NSF Splash Zone 2 optional

TYPICAL HEALTHCARE APPLICATIONS

- Nursing Stations, Hallways, Circulation Areas, Long Term Care, Memory Care

A+ Capable Luminaire

This item is an A+ capable luminaire, which has been designed and tested to provide consistent color appearance and out-of-the-box control compatibility with simple commissioning.

- All configurations of this luminaire meet the Acuity Brands' specification for chromatic consistency
- This luminaire is part of an A+ Certified solution for nLight® control networks when ordered with drivers marked by a shaded background*
- This luminaire is part of an A+ Certified solution for nLight control networks, providing advanced control functionality at the luminaire level, when selection includes driver and control options marked by a shaded background*

To learn more about A+, visit www.acuitybrands.com/aplus.

*See ordering tree for details

SPECIFICATIONS

Housing

Extruded aluminum ceiling trim with cast aluminum endcaps and fabricated 18 gauge cold-rolled steel upper electronics channel housing.

Lens

Extruded 1/16" translucent acrylic snap-in lens.

Reflector

Formed painted steel with gloss white powder coat.

Distribution

Symmetric (SYD) with standard lens or 20° Asymmetric (ASD) distribution with standard lens and inner angled boards.

Finish

Painted in durable polyester powder coat paint with antimicrobial* additive. Available in six standard solid colors. Consult tech support for custom colors or specify RAL colors from Architectural RAL Color brochure.

*Antimicrobial properties are built in to inhibit the growth of bacteria that may affect this product. The antimicrobial properties do not protect users or others against bacteria, viruses, germs, or other pathogens.

Mounting

Three recessed ceiling only installation options available. Grid (G) mount for 9/16" or 15/16" lay-in or tegular grid ceiling systems. Flanged (F) mounting for post sheet rock install with above ceiling installation clip retention system for 1/2" (min) to 5/8" (max) drywall. Flangeless/trim-less sheet rock mud-in (GB) mounting for post sheet rock install secured to sheet rock. Reference installation instructions for more information.

Source

Multiple LED lumen packages provided for Rhythm range of 2700K-6500K in 90CRI. All endpoints falling within 2.5 step MacAdam ellipses.

LED Life

LED rated for >60,000 hours L80 at 25°C ambient temperature.

LED Driver

Driver provides smooth, continuous, flicker free dimming to dark <1%. THD < 20%. Insignificant inrush current at 120 and 277VAC. FCC Class A and B tested for EMI and RFI. Acuity luminaires incorporating eldoLED LED drivers perform within the recommended operating areas for flicker as a function of frequency and modulation (%) outlined in IEEE Standard 1789-2015 (IEEE Recommended Practices for Modulating Current in High-Brightness LEDs for Mitigating Health Risks to Viewers), in typical operating conditions at representative dimming levels. Driver will be set for Logarithmic dimming curve.

Luminaire Surge Protection Level

Designed to withstand up to 2kV.

Voltage

120 through 277 VAC in 50 through 60Hz.

Emergency (Optional)

Optional emergency circuit (NLTEMG) available.

Mainstream Dynamic with nTune Technology

This luminaire is enabled with nTune technology, meaning it has the ability to communicate digitally over an nLight network. When wired, using CAT-5 cabling, with other nLight-enabled sensors, power packs, or WallPods, an nLight control zone is created. Once linked to a Gateway, directly or via a Bridge, the zone becomes capable of timeclock control, remote status monitoring, and control via SensorView software

Controls and System Networking Options

Wired networking via Cat-5e (by others).

Fixture Weight

Weight may vary depending upon options or accessories selected.

SIZE	BASE	
	lbs	kg
24LONG	6.5	2.9
36LONG	9.0	4.1
48LONG	11.5	5.2
72LONG	16.5	7.5
96LONG	21.5	9.8

Environment

Wet location listed, IP64 rated from below fixture.

Ambient Operating Temperature

-20°C (-4° F) to +25°C (+77°F).

Ambient Operating Humidity

<80% relative humidity non-condensing

Certification

CSA certified to meet U.S. and Canadian standards (UL1598 and UL8750) and CAN/CSA C22.2 No. 250.0. IC rated. Certified for NSF Splash Zone 2.

Government Procurement

BAA – Buy America(n) Act: Product qualifies as a domestic end product under the Buy American Act as implemented in the FAR and DFARS. Product also qualifies as manufactured in the United States under DOT Buy America regulations. BABA – Build America Buy America: Product qualifies as produced in the United States under the definitions of the Build America, Buy America Act. Please refer to www.acuitybrands.com/resources/buy-american for additional information.

Warranty

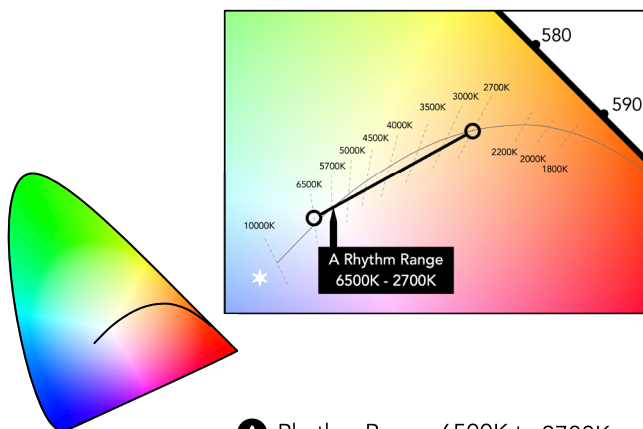

5-year limited warranty. This is the only warranty provided and no other statements in this specification sheet create any warranty of any kind. All other express and implied warranties are disclaimed. Complete warranty terms located at: www.acuitybrands.com/support/warranty/terms-and-conditions

Note: Actual performance may differ as a result of end-user environment and application.

All values are design or typical values, measured under laboratory conditions at 25 °C.

Specifications subject to change without notice.

TUNABLE WHITE GAMUT AND RANGE

A Rhythm Range 6500K to 2700K

Tunable White GPHD

- **Gamut:** One dimensional Warm-Cool (WiC)
- **Path:** Single-segment 6500K to 2700K (Rhythm Range)
- **Handle:** Two Handles: Intensity and CCT
- **Data:** nLight with nTune technology for both handles of control

PHOTOMETRICS

Consult www.acuitybrands.com for photometry.

Photometric data based on test results from an independent NIST traceable testing lab. IES data is available at www.healthcare-lighting.com.
