

BGS LED Security Lights

Affordable Security. General Illumination.

The Lithonia Lighting® BGS LED security lights are the affordable option for your everyday needs lighting large areas including yards, farms and pathways. The white light, instant-on, and low energy consumption make it ideal for any general area illumination.

BGS LED security lights are available in two performance packages that can replace up to a 150W metal halide and the included adjustable photocell provides consistent dusk-to-dawn operation. BGS P2 features switchable color temperatures that include warm, cool or daylight settings.

Mounted directly to walls, poles or with a mounting arm accessory, BGS LED security lights are easy to install, and the efficient LED's deliver years of reliable performance.
