

## SlimBasics™ JSBTC Smart Tapered LED Surface Mount Disk Light

### All of the benefits of the switchable JSBT and so much more!

The Juno® JSBTC Smart Surface Mount Disk Light, available in 6", is the perfect way to get connected with a smart home lighting solution. Designed to provide good quality lighting, while also being budget friendly, the JSBTC is the lowest total install cost for a smart LED solution for single and multi-family applications. The JSBTC uses Bluetooth or Zigbee to pair to your mobile device or compatible smart home hub platforms once installed. When paired with a compatible smart home hub you can enable voice control, time schedules, and groups to control the lighting throughout your home.

#### Features:

- **Easy Installation** Mounts to industry standard junction boxes (no bracket required). Wet Location listed, perfect for bathrooms and outdoor areas.
- **Easy Set-up with or without a Hub** Via Bluetooth or Zigbee to work with smart home platforms Amazon® Alexa, Google Home, and Samsung® SmartThings.
- **Smart Control** Customize lighting from on/off, fine tuning the color temperatures from 2700K to 5000K, dimming to 1% (perfect for use as a nightlight), and grouping to control an entire lighting application at once.
- **Personalization** Control individually or create zones using a simple App.
- **Control from Anywhere** When connected to a smart hub, control or monitor lighting from anywhere with your app.

# SlimBasics™ JSBTC Smart Tapered LED Surface Mount Disk Light
