

# HOLOBAY™

for Large Indoor Spaces

### Typical Applications

- Gymnasiums
- Sports Arenas
- Manufacturing
- Natatoriums
- Airplane Hangars
- Coliseums
- Retail
- Convention Centers

The next generation of round high bays is designed with options ideal for any large indoor application.

With lumen packages ranging from 12,000 - 100,000, and multiple color temperature and color-rendering index options, the HOLOBAY™ can be used in a variety of indoor applications. Our ultra sleek compact size and full suite of controls options allow this fixture to shine anywhere.

Holophane prismatic borosilicate glass optics provide unparalleled light quality, reliability, superior efficiency & spacings, exceptional illumination and visual comfort.

### HOLOBAY™ Applications

Airplane Hangar

Natatorium

Railroad Station

# Mounting Options

Additional mounting options include Crane, Loop, Wall Mount, Yoke, Aircraft Cable and UPH/PHCB.

## Borosilicate Prismatic Glass Optics

Improves vertical light levels while keeping horizontal lighting uniform. Available in focus, medium, narrow, wide and aisle distributions, our optics withstand dust and dirt and are resistant to chemicals and other degrading elements. Focus smooth, frosted glass and silicone options also available.

## Maintenance-Friendly Hinged Driver Housing

Allows for ease of maintenance and access to internal components while the fixture is installed.

## Embedded Controls®

Featuring nLight Air® and Bluetooth to detect occupancy. Whether grouping in a zone or controlling individually, our suite of controls can help to provide additional energy savings and accelerate the return on investment.

## XVOLT LED Driver Protection

XVOLT Zetashield™ driver is standard for 277-480V to help provide protection against a dropped neutral as well as immunity for common power quality issues.

## Additional Features

- + Uplight for additional lumens above the fixture.
- + Lumens
  - HOLO1: 12,000 – 60,000 Lumens
  - HOLO2: 35,000 – 100,000 Lumens
- + Ratings
  - Wet Location
  - IP65 & IP66
  - NEMA 4X
  - IK8 and IK10
