Typical Applications

- Oil Refineries
- Steel Foundries
- Plants
- Mills
- Granaries

Emergency Lighting for Hazardous C1D2 Environments

The HLEMC from Holophane® is a high-performing, IP66 rated emergency exit combo that is designed for use in Class 1, Div 2, groups A, B, C, & D hazardous environments, meeting up to a T3C temperature rating. It is designed with a one-piece corrosion-resistant enclosure that is high-impact resistant to protect fixture against elements, including dust, dirt and water.

- + Small, adjustable lamp heads for optimal spacing.
- + Includes die-cast mounting brackets for wall mount installation with pre-installed conduit hub for wire entry.
- + Standard self-diagnostic option automatically performs monthly & annual tests to ensure reliable operation.
