

VTLX

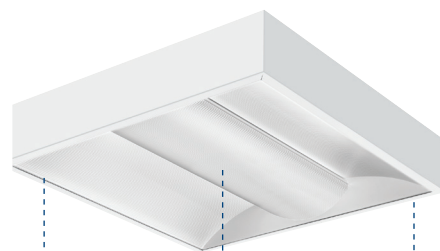

Surface Box Volumetric Solution

Purposeful Design with Soft Light

The VTLX is a volumetric surface-mount center basket. The wide lens provides a more balanced and soft aesthetic in comparison to other center basket fixtures. The VTLX combines quality illumination, contemporary design and advanced LED technology for high-performance ambient lighting.

Key Features:

- **Versatile Design** - 2'x2' and 2'x4' configurations
- **Illuminate Your Space** - Lumen packages ranging from 2,000 to 7,200
- **Total Control** - Embedded nLight® lighting controls to aid in code compliance and energy savings
- **Range of Applications** - Commercial applications including offices, education, retail and healthcare where hard ceilings are present
- **Mounting Options** - Can be mounted directly with no need for extra mounting accessories
