

# Control in the Board Room

High Performance Lighting and Controls Solutions for Today's Dynamic Spaces

**DIM THE LIGHTS, LOWER THE SCREEN** and shades before watching that big sales presentation, or keep the lights bright while reviewing critical financial reports. Board meetings, sales pitches — even impromptu staff gatherings — are always on message with Fresco.

**Fresco Touchscreen** manages lighting for today's architectural spaces, putting the user confidently in control. Distinguished by its visual appeal and cognitive design, Fresco directly incorporates nLight® devices and controls traditional light sources, LED, RGB and tunable white. Built-in Bluetooth® wireless technology connects with handheld devices. Fresco Touchscreen integrates with building management systems (BMS) through BACnet/IP to trigger scenes and set levels for zones, channels and groups.

#### On-screen Lighting Design

Create and edit the lighting layout directly from the touchscreen controller.

#### nLight® Device Integration

Extend the range of control with digital sensors, wall stations and luminaires.

#### Fresco Control Network

Connect additional Fresco Touchscreens and button stations to extend control throughout the space.

#### Universal Lighting Control

Manage all dynamic lighting sources from a single touchscreen controller.

#### DMX512-A/RDM Control

Fine-tune color, color temperature and intensity of high-performance, RGB and tunable white luminaires.

#### Wireless Connection

Pair handheld devices with the Fresco Touchscreen for seamless control anywhere in the space.

#### Scheduling

Activate lighting scenes with the built-in astronomic time clock.

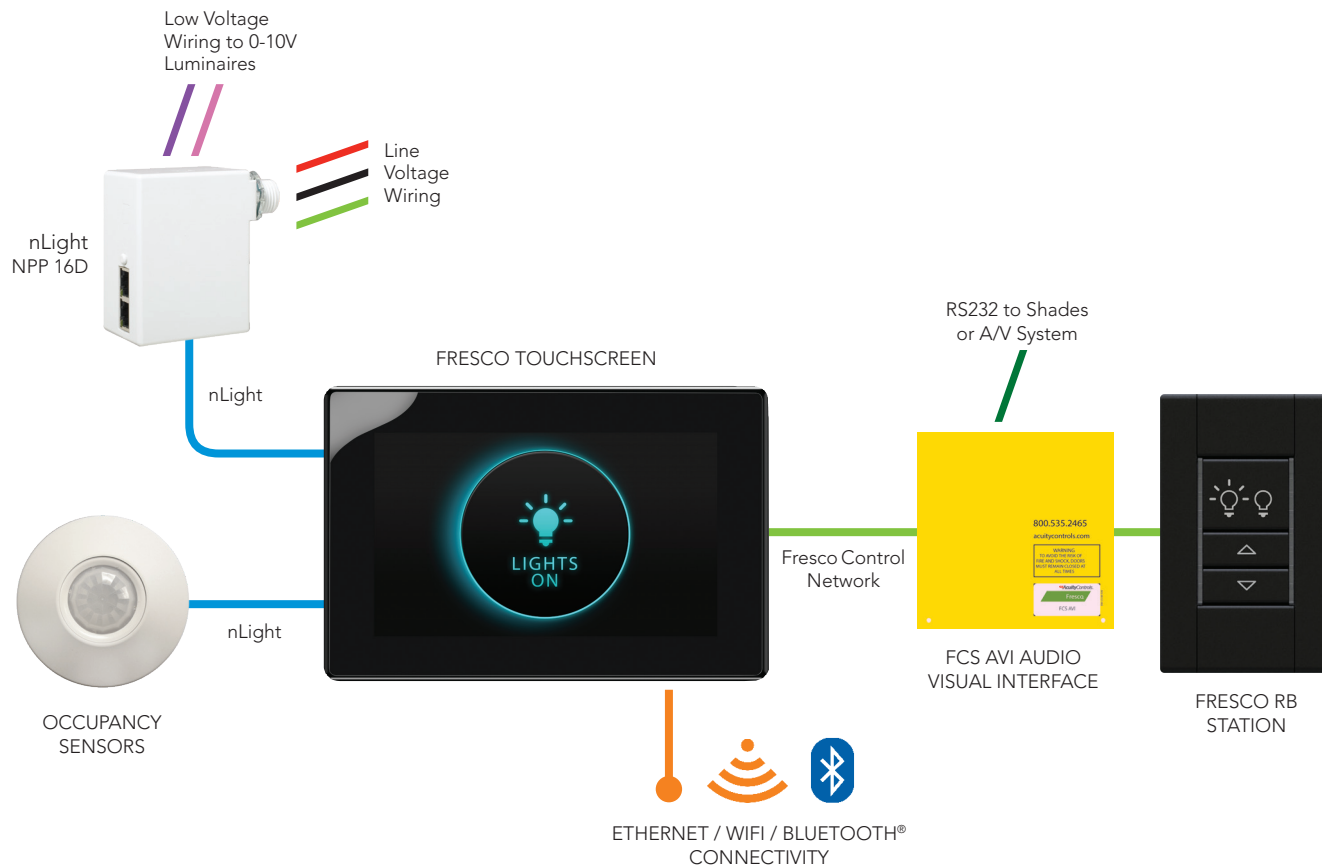

#### Room Link

Link Fresco controllers to share lighting zones and scenes when rooms are combined.

#### Third-Party Integration

Allow third-party control systems to communicate with the Fresco network.

## / BOARD ROOM SEQUENCE OF OPERATION

- Distribute and control different lighting technologies using **nLight power packs**
- Manually activate pre-programmed scenes from the **Fresco RB Station**
- Control additional scenes, lighting intensity or other lighting channels from the **Fresco Touchscreen**
- Automatically control lighting levels with **nLight occupancy** or **daylighting** sensors
- Control third-party motorized shades and allow AV systems to interface with the Fresco network using **Fresco AVI**
- Wirelessly control lighting with **Fresco mobile app**

*Alternate functionality is available.*

## / A SAMPLING OF COMPATIBLE LUMINAIRES
