

Make A Grand Entrance

High Performance Lighting and Controls Solutions for Today's Dynamic Spaces

HUNDREDS OF VISITORS, DAY AFTER DAY. The right lighting gives them a reason to pause and feel welcome. Brighter by day as people hurry to and from the office, softer by night as they prepare to wind down. Holidays and events can be even more special with evocative lighting scenes that set the tone for the season.

Fresco manages lighting for today's architectural spaces, putting the user confidently in control. Distinguished by its visual appeal and cognitive design, Fresco directly incorporates nLight® devices and controls traditional light sources, LED, RGB and tunable white. Built-in Bluetooth® wireless technology connects with handheld devices. Fresco Touchscreen integrates with building management systems (BMS) through BACnet/IP to trigger scenes and set levels for zones, channels and groups.

On-screen Lighting Design

Create and edit the lighting layout directly from the touchscreen controller.

nLight® Device Integration

Extend the range of control with digital sensors, wall stations and luminaires.

Fresco Control Network

Connect additional Fresco Touchscreens and button stations to extend control throughout the space.

Universal Lighting Control

Manage all dynamic lighting sources from a single touchscreen controller.

DMX512-A/RDM Control

Fine-tune color, color temperature and intensity of high-performance, RGB and tunable white luminaires.

Wireless Connection

Pair handheld devices with the Fresco Touchscreen for seamless control anywhere in the space.

Scheduling

Activate lighting scenes with the built-in astronomic time clock.

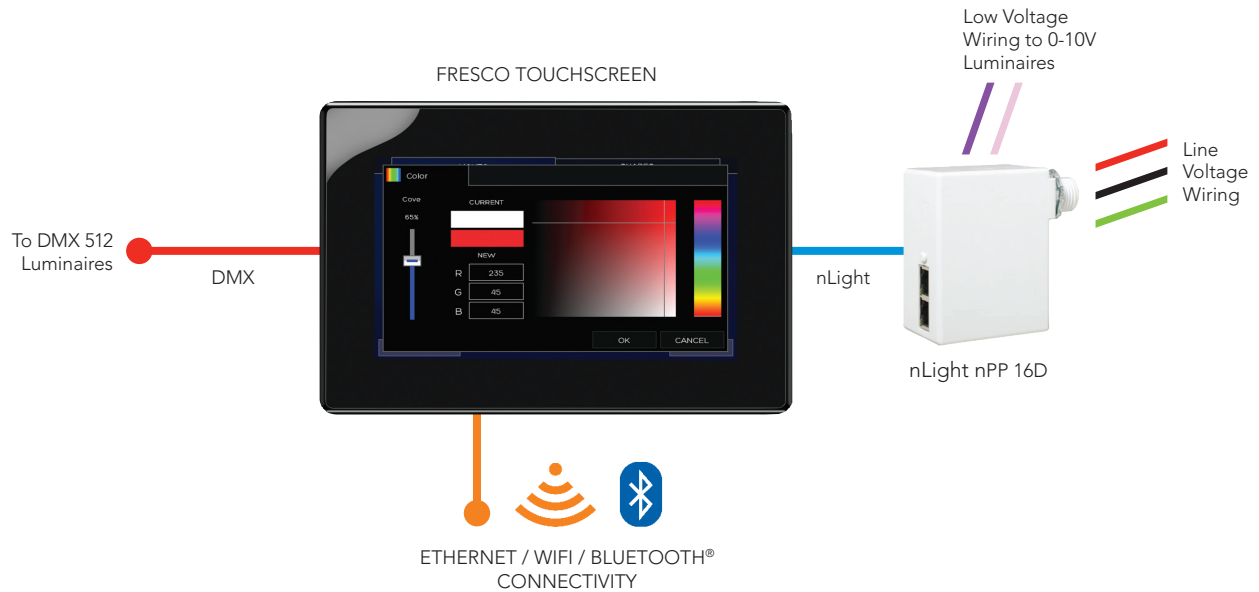

Room Link

Link Fresco controllers to share lighting zones and scenes when rooms are combined.

Third-Party Integration

Allow third-party control systems to communicate with the Fresco network.

/ LOBBY SEQUENCE OF OPERATION

- Distribute and control different lighting technologies using **nLight power packs**
- Control additional scenes, lighting intensity or other lighting channels from the **Fresco Touchscreen**
- Control color for special events or holidays using the integrated DMX 512 palette from the **Fresco Touchscreen**
- **BACnet/IP** allows building management systems (BMS) to communicate to the Fresco network

Alternate functionality is available.
