

Tonight's Performance, Dinner & Drinks

High Performance Lighting
and Controls Solutions for
Today's Dynamic Spaces

FRESCO TAKES YOU SEAMLESSLY from day to night, creating the backdrop for a series of memorable experiences. Scenes like a light, bright dining room for the weekday lunch crowd can slowly transform into a warm, intimate setting for evening guests. Special event and holiday scenes only enhance the possibilities.

Fresco Touchscreen manages lighting for today's architectural spaces, putting the user confidently in control. Distinguished by its visual appeal and cognitive design, Fresco directly incorporates nLight® devices and controls traditional light sources, LED, RGB and tunable white. Built-in Bluetooth® wireless technology connects with handheld devices. Fresco Touchscreen integrates with building management systems (BMS) through BACnet/IP to trigger scenes and set levels for zones, channels and groups.

On-screen Lighting Design

Create and edit the lighting layout directly from the touchscreen controller.

nLight® Device Integration

Extend the range of control with digital sensors, wall stations and luminaires.

Fresco Control Network

Connect additional Fresco Touchscreens and button stations to extend control throughout the space.

Universal Lighting Control

Manage all dynamic lighting sources from a single touchscreen controller.

DMX512-A/RDM Control

Fine-tune color, color temperature and intensity of high-performance, RGB and tunable white luminaires.

Wireless Connection

Pair handheld devices with the Fresco Touchscreen for seamless control anywhere in the space.

Scheduling

Activate lighting scenes with the built-in astronomic time clock.

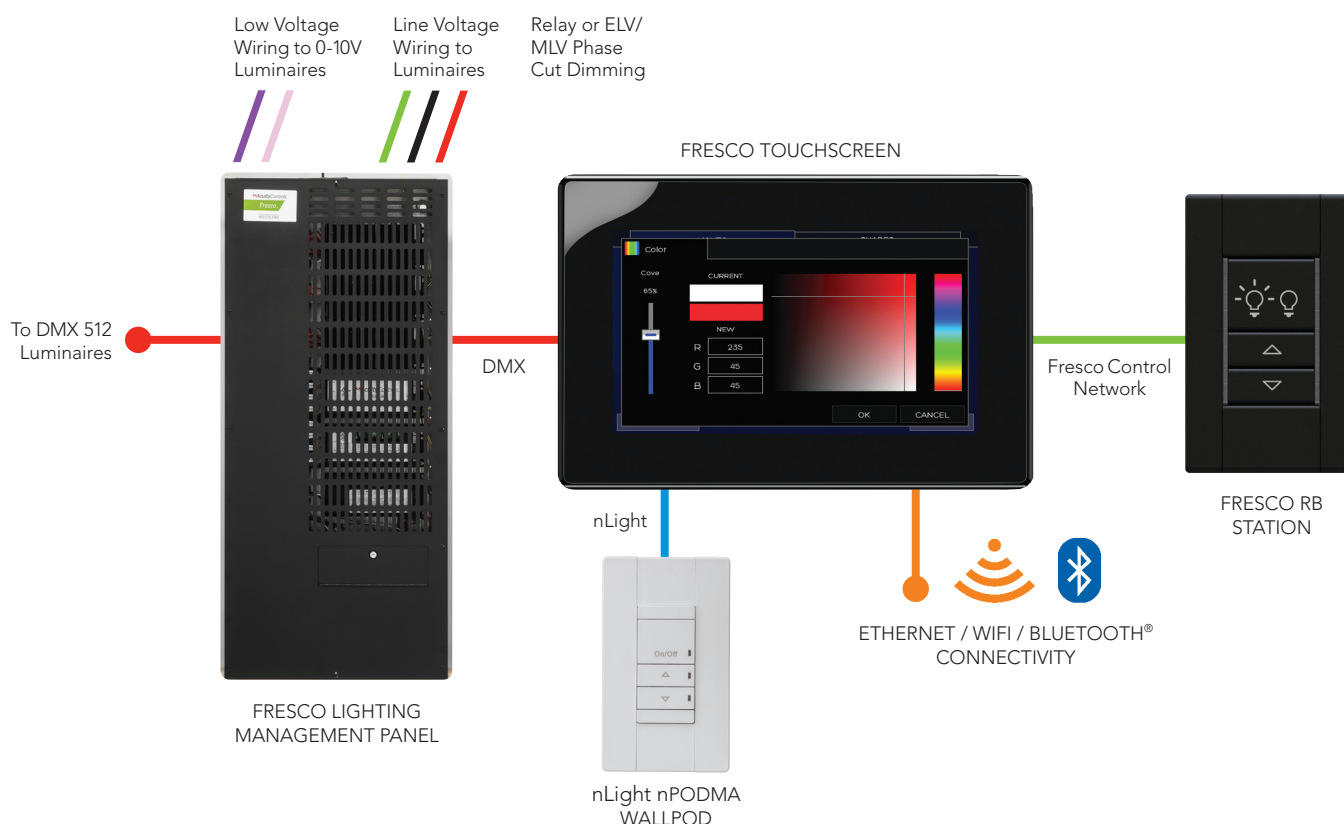

Room Link

Link Fresco controllers to share lighting zones and scenes when rooms are combined.

Third-Party Integration

Allow third-party control systems to communicate with the Fresco network.

/ RESTAURANT SEQUENCE OF OPERATION

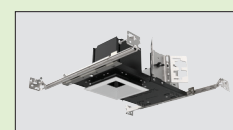

- Schedule scenes to automatically and smoothly transition throughout the day using **Fresco Touchscreen**
- Wire lighting fixtures and control different lighting technologies from one central location with **Fresco Lighting Management Panel**
- Manually activate pre-programmed scenes from the **Fresco RB Station**
- Control back-of-house lighting from the **nLight button station**
- Wirelessly control lighting from the host stand using the **Fresco mobile app**
- **BACnet/IP** allows building management systems (BMS) to communicate to the Fresco network
- Create and modify events using **on screen scheduling**

Alternate functionality is available.
