Tonight's Performance Dinner & Drinks

High Performance Lighting and Controls Solutions for Today’s Dynamic Spaces

FRESCO TAKES YOU SEAMLESSLY from day to night, creating the backdrop for a series of memorable experiences. Scenes like a light, bright dining room for the weekday lunch crowd can slowly transform into a warm, intimate setting for evening guests. Special event and holiday scenes only enhance the possibilities.

**Fresco Touchscreen** manages lighting for today's architectural spaces, putting the user confidently in control. Distinguished by its visual appeal and cognitive design, Fresco directly incorporates nLight® devices and controls traditional light sources, LED, RGB and tunable white. Built-in Bluetooth® wireless technology connects with handheld devices. Fresco Touchscreen integrates with building management systems (BMS) through BACnet/IP to trigger scenes and set levels for zones, channels and groups.

- **On-screen Lighting Design**
  Create and edit the lighting layout directly from the touchscreen controller.

- **nLight® Device Integration**
  Extend the range of control with digital sensors, wall stations and luminaires.

- **Fresco Control Network**
  Connect additional Fresco Touchscreens and button stations to extend control throughout the space.

- **Universal Lighting Control**
  Manage all dynamic lighting sources from a single touchscreen controller.

- **DMX512-A/RDM Control**
  Fine-tune color, color temperature and intensity of high-performance, RGB and tunable white luminaires.

- **Wireless Connection**
  Pair handheld devices with the Fresco Touchscreen for seamless control anywhere in the space.

- **Scheduling**
  Activate lighting scenes with the built-in astronomic time clock.

- **Room Link**
  Link Fresco controllers to share lighting zones and scenes when rooms are combined.

- **Third-Party Integration**
  Allow third-party control systems to communicate with the Fresco network.
• Schedule scenes to automatically and smoothly transition throughout the day using **Fresco Touchscreen**

• Wire lighting fixtures and control different lighting technologies from one central location with **Fresco Lighting Management Panel**

• Manually activate pre-programmed scenes from the **Fresco RB Station**

• Control back-of-house lighting from the **nLight button station**

• Wirelessly control lighting from the host stand using the **Fresco mobile app**

• **BACnet/IP** allows building management systems (BMS) to communicate to the Fresco network

• Create and modify events using **on screen scheduling**

  *Alternate functionality is available.*
