

## FEATURES & SPECIFICATIONS

**INTENDED USE** — LBL LED wraparound provides a digital lighting platform to deliver general ambient lighting for surface-mount applications. The LED system delivers long life and excellent color to ensure a quality, low-maintenance lighting installation.

**CONSTRUCTION** — Metal parts are die formed from pre-painted code-gauge steel. Prismatic diffuser is 100% acrylic with sonically welded luminous ends. Continuous side flanges on fixture body provide light trap and continuous diffuser support to prevent accidental opening and simplify maintenance.

**OPTICS** — Curved prismatic diffuser with linear side prisms and highly transmissive overlay minimizes lamp image and provides high-angle brightness control. Luminous end plates soften appearance for improved aesthetics.

**ELECTRICAL** — Long-life LEDs, coupled with high-efficiency drivers, provide superior quantity and quality of illumination for extended service life. 70% LED lumen maintenance at >60,000 hours (L70/>60,000). The LEDs have a CRI of 80.

eldoLED driver options deliver choice of dimming range and choices for control, while assuring flicker-free, low-current inrush, 89% efficiency and low EMI.

Step-level dimming option allows system to be switched to 50% power for compliance with common energy codes while maintaining fixture appearance.

**CONTROLS** — Optional nLight® embedded controls continuously monitor system performance, allow for constant lumen management / compensation function, facilitate simple “plug-and-play” network and controls upgrading via Cat-5 cable. Ballast disconnect provided where required to comply with US and Canadian codes.

**INSTALLATION** — Intended for surface or suspend mounting.

**LISTINGS** — CSA certified to meet U.S. and Canadian standards. Damp listed.

DesignLights Consortium® (DLC) qualified product. Not all versions of this product may be DLC qualified.

Please check the DLC Qualified Products List at [www.designlights.org/QPL](http://www.designlights.org/QPL) to confirm which versions are qualified.

**GOVERNMENT PROCUREMENT** — BAA — Product with the BAA option qualifies as a domestic end product under the Buy American Act as implemented in the FAR and DFARS. Product with the BAA option also qualifies as manufactured in the United States under DOT Buy America regulations.

BABA — Build America Buy America: Product with the BAA option also qualifies as produced in the United States under the definitions of the Build America, Buy America Act.

Please refer to [www.acuitybrands.com/buy-american](http://www.acuitybrands.com/buy-american) for additional information.

**WARRANTY** — 5-year limited warranty. This is the only warranty provided and no other statements in this specification sheet create any warranty of any kind. All other express and implied warranties are disclaimed. Complete warranty terms located at: [www.acuitybrands.com/support/warranty/terms-and-conditions](http://www.acuitybrands.com/support/warranty/terms-and-conditions)

**Note:** Actual performance may differ as a result of end-user environment and application.

All values are design or typical values, measured under laboratory conditions at 25 °C.

Specifications subject to change without notice.

### Low-Profile Curved-Basket LED Wraparound

# LBL8

8' LENGTH, NARROW HOUSING  
LED

## DIMENSIONS

### Specifications

Length: 96 (244.0)  
Width: 10 (25.4)  
Depth: 2-3/4 (7.0)  
Weight: 20.25 lbs

All dimensions are inches (centimeters) unless otherwise indicated.

## Capable Luminaire

This item is an A+ capable luminaire, which has been designed and tested to provide consistent color appearance and out-of-the-box control compatibility with simple commissioning.

- All configurations of this luminaire meet the Acuity Brands' specification for chromatic consistency
- This luminaire is part of an A+ Certified solution for nLight® control networks when ordered with drivers marked by a **shaded background**\*
- This luminaire is part of an A+ Certified solution for nLight control networks, providing advanced control functionality at the luminaire level, when selection includes driver and control options marked by a **shaded background**\*

To learn more about A+, visit [www.acuitybrands.com/aplus](http://www.acuitybrands.com/aplus).

Notes

- 1 Approximate lumen output.
- 2 Requires GZT control option.
- 3 Requires ZT or NLIGHT control option.
- 4 Not available with SLD option.
- 5 If SLD selected, must leave Minimum Dimming Level & Control options blank. SLD option requires two hot (black) wires and a shared neutral (white) wire - see installation instructions for wiring diagram.
- 6 Not available with 14400LM option.
- 7 Requires NLIGHT control option. EMG option requires a connection to existing nLight network. Power is provided from a separate N80 or N100 enabled fixture.
- 8 When Control Input/ Lumen Management option specified leave Dimming section blank.
- 9 347 not available with battery option.

Replacement Part: Order as separate catalog number.

**How to Estimate Delivered Lumens in Emergency Mode**  
Use the formula below to estimate the delivered lumens in emergency mode.  
**Delivered Lumens = 1.25 x P x LPW**  
P = Output power of emergency driver. P = 10W for E10WLCP option.  
LPW = Lumen per watt rating of the luminaire. LPW information available in Performance Data section.

MOUNTING DATA

Suspension Kit Ceiling Types: F1 for use with most T-bar and screw slot grid ceiling applications. Designed for on-grid and off-grid installations.  
F2 for use with recessed or surface-mount horizontal J-box applications.  
For unit or row installation; surface or suspend mounting.  
For aircraft cable, one STACG\_, STACGF\_, or STACGE\_ required for each of the 4 suspension points.
