

Poles Quick Ship Program

1000+ Configurations of Square Straight Steel Poles
Delivered in 21 Days

What You Need, When You Need it

Lithonia Lighting® makes it easy to win small area lighting opportunities when quick delivery is critical. The combination of the fast delivery of ESX and RSX LED area luminaires and this Poles Quick Ship Program will result in both luminaires and poles being on the jobsite within 21 calendar days from receipt of order.

1000+ Available Configurations

With over 1000 different configurations available, the Lithonia Lighting® poles Quick Ship Program meets more customer requirements than the limited “dark-bronze-only” configurations of other manufacturers’ stock offering. Available in dark bronze, black and natural aluminum, these 4” and 5” square straight steel poles are available with multiple drilling and tenon options.

This program uses Lithonia Lightings® standard quantity-base prices that include freight, making it easy for distributors to know their costs and effectively quote their customers.

Dark Bronze

Natural Aluminum

Black

Square Straight Steel SSS

Program Details

- Only options listed in the ordering tree are valid
- Nomenclature must include "QS" directly after the series name
- Order quantity limited to 10 poles (total order)
- Anchor bolts will be shipped separately from our stock within 24 hours of receiving the poles order
- Quick Ship orders cannot be entered with "not before" dates or specified ship dates
- Quick Ship orders cannot have standard pole lines
- All orders must include "call before number" to avoid delays

Anchor Bolts

SSS Shaft Sizes	Nomenclature	Anchor Bolt Descriptions
All 4" 11-gauge (4C) poles	ABSSS-4C	3/4"x18"x3"
All 4" 7-gauge (4G) poles	ABSSS-4G	3/4"x30"x3"
All 5" 11-gauge (5C) and 7-gauge (5G) poles	ABSSS-5	1"x36"x4"

- NOTES:
- When poles are ordered with anchor bolts, the anchor bolts are shipped with the appropriate template within 24 hours of Acuity receiving the order.
 - All anchor bolts are stocked in four Acuity regional distribution centers for quick delivery.
 - Anchor bolts can also be ordered separately using the nomenclature above.

Order with ESX LED Area!

- The ESX1 LED area luminaires are ideal for small area lighting projects, providing excellent illumination at an affordable price.
- ESX1 area luminaires are always in stock at the Acuity Brands regional distribution centers, so your project will always be on schedule.
- ESX1 delivers 8,000 to 25,000 lumens allowing it to replace 150W to 400W HID luminaires.
- ESX1 area luminaires feature adjustable light output, providing two light levels from one product, allowing for greater flexibility while helping to reduce inventory costs.
- Pole and luminaire color and drilling match is never a problem when you order Lithonia Lighting® luminaires and poles.
