

# MARK ARCHITECTURAL LIGHTING™

## CHISEL 2'X4'

### Recessed – Static White

CHISEL reveals the shape of light with soft luminous gradients and textures that add depth and character to any design. 5 forms, 4 luminous effects and 3 textured patterns allow for endless options to create clusters and unique layouts that deliver high quality volumetric lighting for practical performance and design impact.

Type:

Project:

Catalog Number:

DO NOT TYPE HERE. Autopopulated field.

## Specification Features

### Housing

Extruded aluminum housing. 2'x4' 38 lbs.

### Finish

Painted after fabrication, high reflectance matte white.

### Reflector

High-impact, 97% reflective vacuum-formed polymer reflector with textured pattern and satin white finish.

### Mounting

Recessed. Available 9/16" and 15/16" flat, 9/16" screw slot or 9/16" narrow.

### Lens

Clear acrylic sanitary lens option seals off aperture for easy wipe down in healthcare applications.

### UGR

Data available on page 4.

See page 2 for additional specifications.

### Notes

- Available for 9/16" grid only.
- See table for delivered lumens/fixture.
- Incorporates longest side of luminaire.
- Available with DMX and max lumen package only.
- DARK not available with ECOD.
- MIN1 not available with NLIGHT, NLTAIR2 or DALI.
- Not available with 347 option.
- EMG option requires a connection to existing powered nLight network. Power is provided from a separate nLight fixture.
- Not available with NLIGHT, NLTAIR2, or DMX options.
- Must select SNL with AMF.

Specification Features (continued)

**Electrical**  
Long-life LEDs, coupled with high-efficiency drivers, provide superior quantity and quality of illumination for extended service life. 80% LED lumen maintenance at 60,000 hours (L80/60,000).

**Color Consistency**  
The Acuity Brands circuit boards for the linear LED components use a precise binning algorithm which creates a consistent color temperature from board to board. Color variation is no greater than a 2.5 Step MacAdam (2.5SDCM) along the black body locus from board to board.

**Driver**  
eldoLED® driver provides natural dimming with smooth, continuous and flicker-free deep dimming. Supports operation between 120VAC and 277 VAC, with low inrush current (NEMA 410) and THD < 20%. Meets FCC Title 47 C.F.R. 15 Class A or Class B requirements. Lutron high performance driver options also available.

**Integrated Controls**  
Optional nLight® embedded controls make luminaire addressable- allowing it to digitally communicate with other nLight enabled controls such as dimmers, switches, occupancy sensors and photocontrols. Simply connect all the nLight enabled control devices using standard CAT5 Cabling. (Input option: NLIGHT)

**Certification**  
UL Certified to meet U.S. and Canadian standards, rated for damp locations.

**Healthcare Applications**  
This fixture is suitable for use in healthcare applications such as patient rooms, nursing stations, long term care and hallways when the optional sanitary lens and antimicrobial paint are specified.

**Warranty**  
5-year limited warranty. This is the only warranty provided and no other statements in this specification sheet create any warranty of any kind. All other express and implied warranties are disclaimed. Complete warranty terms located at: [www.acuitybrands.com/support/warranty/terms-and-conditions](http://www.acuitybrands.com/support/warranty/terms-and-conditions)

**Note:** Actual performance may differ as a result of end-user environment and application.  
All values are design or typical values, measured under laboratory conditions at 25 °C.  
Specifications subject to change without notice.

## A+ Capable Luminaire

This item is an A+ capable luminaire, which has been designed and tested to provide consistent color appearance and out-of-the-box control capability with simple commissioning when used with Acuity Brands controls products.

All configurations of this luminaire are calibrated and tested to meet the Acuity Brands' specification for chromatic consistency - including color rendering, color fidelity and color temperature tolerance around standard CIE chromaticity coordinates.

To learn more about A+, visit [www.acuitybrands.com/aplus](http://www.acuitybrands.com/aplus).

Lumen Package	UGR (70% 50% 20% reflectance using a 4H x 8H room size)					
	Crosswise			Endwise		
	1SD	2SDP	4SD	1SD	2SDP	4SD
2000LM	16.2	15.8	16.6	22.5	18.5	17.5
3000LM	17.4	17.1	17.9	23.8	19.8	18.8
4000LM	18.4	18.1	18.9	24.8	20.8	19.9
5000LM		19.1	19.9		21.8	20.9
6000LM		19.7	20.6		22.4	21.5
7000LM		20.2	21.1		22.9	22.1
8000LM		21.5	20.6		22.4	23.3

UGR varies based on luminaire options and is affected by application dependent parameters. Numbers depicted here are considered "Luminaire-UGR" and/or "Point-UGR" values. To determine a more precise maximum UGR value ("Application-UGR"), a full lighting design layout should be completed with the selected luminaire configuration for each application. Click here for more information on [UGR](#).
