

RSX LED

Area Luminaires

One Family Does It All...

RSX LED area luminaires are specifically designed to provide one-for-one solutions for replacing metal halide or high pressure sodium lighting. Priced for payback, RSX area luminaires are the best choice for customers looking for low initial costs and high energy savings. These attractive luminaires provide superior illumination, easy installation and the reliability you can expect from Lithonia Lighting®.

Energy and Maintenance Savings

RSX LED area luminaires save up to 77% when replacing existing metal halide luminaires. Paired with nLight® AIR wireless networked controls, an additional 50+% energy savings can be achieved by dimming the luminaires during periods of low occupancy. With an expected service life of 20 years, these products eliminate costly lamp and ballast changes.

Easy Installation

RSX LED area luminaires feature a universal mounting mechanism allowing for installation using existing drill holes when replacing metal halide luminaires. This "no drill" solution can save up to 75% in installation labor.

Made to Order and Quick Delivery

RSX LED area luminaires offer an expansive range of lumen packages, photometric distributions, mounting mechanisms, color temperatures and finishes, allowing for seamless upgrades to existing installations. Since the RSX LED area luminaires are made in North America, all of these options are available with industry-leading delivery.

Quick Facts:

- Four sizes replace 70W - 1000W HID luminaires
- 7,000 to 70,000 lumens
- Super-efficient – up to 155 LPW
- Ten photometric distributions
- Eight unique mounting configurations
- Made in North America
- 5-year warranty
